Quick Changeover

Easy height adjustment and simple self centering wheel adjustment

Simplifies Maintenance

Self centering belts require no adjustments along with tool-less blade and roller change on tape cartridge

Production Versatility

Easily pairs with multiple case erectors to form a minipack station and sealer

Robust Design

7 gauge steel mast and 12 gauge welded steel head and structural platform provide long-lasting durability

LD-3SB

Semi-automatic, uniform case sealer

The LD-3SB is an operator fed, semi-automatic, uniform, industrial grade case sealer designed to top and bottom seal corrugated cases. Ideal for tall and narrow cases. This side belt sealer is available with a narrow box option of 3 1/4".

Features and benefits

Performance

- Operator friendly self-centering system requires no manual adjustments which reduces wear.
- Powerful 1/6 HP high efficiency motor drive system

Versatility

- Compact footprint
- Large case range with narrow box option
- Quick changeover

Durability

- Robust design is ideal for 24/7 operations
- 7 gauge steel mast and 12 gauge welded steel head and structural platform

Safety

- Motors have individual and separate overload protection
- Tape cartridge features patented locking knife guard

Optional equipment

- Infeed and exit pack table (solid or roller)
- ■Top squeezers
- 3 flap folder
- Available for 3" wide tape
- High mast for box heights to 34" (864 mm)
- Casters
- Mirror image
- Spare parts kit
- NEMA 4, NEMA 12
- Narrow box option of 3 1/4"

CaseLocker[™] 60 series tape cartridges

- Patented locking knife guard system allows the blade to be exposed only when the rollers are depressed
- Telescoping tape core allows for varying tape core sizes
- Patented toolless removal of blades and wipe rollers
- Processes weak corrugated
- No lubrication points
- Utilizes link bar and knife arm bearings for added strength
