DESCRIPTION:

Starview's RB Series semi-automatic rotary type heat sealers are designed for medium to higher volume production requirements where an economical but simple to operate machine is required. These machines may be used for conventional carded blisters, full face blisters as well as applications using Tyvek, foils and other heat sealable lidstock. The standard machines feature one sealing station with the remaining stations used for load/unload stations.

For machines capable of higher production rates and advanced automation features please consider Starview's **ERB, FAB, BSC & CBS Series**.
