EXPERIENCE THE STARVIEW ADVANTAGE:

- A heavy-duty industrial unit that can produce packages that look like they were produced on a high production machine.
- Uses quick-change cost effective multi-ply hardwood or durable aluminum tooling.
- Large sealing area MS Series machines available to produce oversize packages such as club store trapped blister designs.
- Digital temperature controller and electronic sealing cycle timer for process repeatability.
- Industry leading design, construction, features and customer support.

DESCRIPTION:

The **SB and SSB Series** Manual Shuttle Blister Sealers are designed and built for industrial applications. These machines are simply designed for ease of operator training and operation. An efficient heating system keeps power consumption low. This series machines can adapt to seal blister packages for a wide range of products by simply changing the tooling. These systems are competitively priced making them ideal for contract packagers or low volume equipment manufacturers. The **SB and SSB Series** shuttle sealers will provide years of dependable performance with a minimum of maintenance.

For machines capable of higher production rates please consider Starview's **RB, ERB, FAB, BSC & CBS Series**.
